

# KERRO TP-508 Thermometer for Cooking & Meat

## FEATURES

- Automatic shut-off function
- The Celsius/Fahrenheit display mode can be switched
- Low energy consumption
- High stability and high precision
- Probe Protection

## TECHNICAL SPECIFICATION

1. Temperature Measurement: -50 Celsius ~ + 300 Celsius  
(-580 Fahrenheit ~ + 5720 Fahrenheit)
2. Temperature Accuracy: +/- 1 Celsius/Fahrenheit
3. Energy Saving Mode: 10 minutes Automatic power-off function
4. Power supply: 1\*1.5 V (Ag13) (not include d)
5. Colour: Red + White
6. Material: Plastic + Stainless steel
7. Total length: approx. 24 cm / 9.4in
8. stainless steel probe length: approx. 12 cm / 4.7in
9. Size: 24.5\*4\*2cm

## APPLICATION

*Food Industry, cooking, hotels, laboratories and other contact application*

REF:MSD/F2002
